# Explosion Boy

## Introduction:

“Explosion Boy is an action platformer for the PC that put you in the role of a demolition/adventurer who seeks to find the ever precious gems.”

“Control Explosion boy with a never-ending supply of bombs and blast through this world and conquer each world.”

## Description:

Explosion boy thrust you into the role of a demolition/adventurer. You can use your bombs to accelerate your climb to the top of the world and grab the ever so valuable gem. Strategically plant your bomb and strategically timer your explosion to launch yourself into the sky. Be careful to avoid the many traps in this world. There is something trying to stop you from climbing the world. Don't go too slow or you will be swallowed by the hot molten lava right below you. Make haste.

The one controlling this chaotic world is none other than the Big Blue Squid a monster, old as the world and ever so hungry for the souls of the misfortune travelers that end up here. You are its newest prey can you kill it before it kills you?

Kill the Big Blue Squid and free yourself and the world of its terrors.
